

Lek Treks & More

The Woodward Lesser Prairie-Chicken Festival

Photograph by John Kennington

Woodward, Oklahoma April 11-18, 2018

Join the Oklahoma Audubon Council for an amazing prairie experience! See and hear the quickly vanishing Lesser Prairie-Chicken displaying on its gobbling grounds. Come share and experience the natural heritage of the high plains of northwestern Oklahoma.

Festival Highlights

- Lesser Prairie-Chicken viewing from blinds or vans in northwest Oklahoma
- Greater Prairie-Chickens viewing from blinds in Osage County in northeastern Oklahoma!
 - Packages designed specifically for photographers
- An opportunity to actively participate in protecting the species by helping to mark fences
 - Field trips led by local experts around northwest Oklahoma
- Post-festival field trips to the Black Mesa or to the Wichita Mountains (see Black-capped Vireos!)
 - A variety of informative workshops and speakers

Keynote Speaker Al Blatt

Al Batt of Hartland, Minnesota is a writer, speaker, storyteller and humorist. Al writes humor and nature columns for many newspapers and does regular radio shows about nature. He writes a number of popular cartoon strips that are syndicated nationally and is author of the book, "A Life Gone to the Birds." He is a columnist for Bird Watcher's Digest and writes for a number of magazines and books. He is a trustee of the American Bald Eagle Foundation in Haines, Alaska. Al has hosted TV shows, speaks around the country, and has received numerous awards. Al speaks to anyone who will listen. His mother thinks he is special.

Schedule of Events

Check www.lektreks.org for updates and more information.

- Wednesday, April 11th**
4:30* am – 3:00 pm Greater Prairie-Chicken Viewing at a Private Ranch
Catered Lunch and Birding at the Tallgrass Prairie Preserve (~90 mins NW of Tulsa)
- Thursday, April 12th**
6:30 am – 4:00 pm Photography Workshop with Leader TBA
3:00 pm Registration Desk Opens
6:00 pm – 8:00 pm Flock & Mingle Reception, Northwest Inn
Opening Remarks & Orientation at 7:00 p.m.
- Friday, April 13th**
4:00* am – 1:30 pm Lesser Prairie-Chicken Viewing, Ranch Brunch & Fence Marking
4:00* am – 9:00 pm Lesser Prairie-Chicken Photographer's Package
7:00 am – 3:00 pm Salt Plains National Wildlife Refuge
5:30 pm – 8:00 pm Dinner at Selman Living Lab (includes Botany Walk)
8:30 pm – 10:00 pm Stargazing at Selman Living Lab
8:30 pm – 10:00 pm Bat Prowl, Alabaster Caverns
- Saturday, April 14th**
4:00* am – 1:30 pm Lesser Prairie-Chicken Viewing, Ranch Brunch & Fence Marking
4:00* am – 9:00 pm Lesser Prairie-Chicken Photographer's Package
7:00 am – 3:00 pm Harper/Woodward County Birding Trek
7:30 am – 12:00 pm Prairie Dog Town Birding Trek
2:00 pm – 4:30 pm Workshops, Northwest Inn
5:30 pm – 8:00 pm Dinner and Keynote, Northwest Inn
- Sunday, April 15^h**
4:00* am – 1:30 pm Lesser Prairie-Chicken Viewing, Ranch Brunch & Fence Marking
4:00* am – 9:00 pm Lesser Prairie-Chicken Photographer's Package
7:00 am – 3:00 pm Harper/Woodward County Birding Trek
7:30 am – 12:00 pm Prairie Dog Town Birding Trek
- Monday, April 16th**
8:00 am – 5:00 pm Wichita Mountains Nat'l Wildlife Refuge Trek
7:00 am Depart for Black Mesa Birding Trek (3 Days)
- Tuesday, April 17th**
7:00 am – 3:00 pm Southwest Oklahoma (extension of Wichita Mtns Trek)

Festival Headquarters

Festival Headquarters is the Northwest Inn located in Woodward. Registration, workshops, vendors and displays will be in the Terrace Room, and all treks will leave from there. Special rates are available for festival participants. Rates include a free, cooked breakfast and free wireless Internet. See www.northwestinnok.com for details of the room amenities. Call the Inn at 800-727-7606 to make your reservation, mentioning the Lesser Prairie-Chicken Festival.

Other Lodging Options. Additional hotels and motels are located in Woodward (though you won't find a better value than the Northwest Inn!). Visit www.lektreks.org for a list of Bed & Breakfasts, Lodges, Inns and Guest Ranches in the area. Camping is available at Boiling Spring State Park, located just a few miles east of town (1-800-654-8240 www.oklahomaparks.com)

Sponsors

Lesser Prairie-Chicken Viewing, Ranch Brunch & Fence Marking

Please Note

Lesser Prairie-Chickens are not doing well on the Selman Ranch and adjacent areas, despite Sue Selman's best efforts to make her ranch Prairie-Chicken friendly. The last two years we have not had leks on ranches where we have access to set up blinds. However, there are some leks a bit further west that we know of and are able to view from the vans. So while the blinds were not an option in 2016 and 2017, everyone still had excellent views of the birds. For 2018 you may choose the blind or van viewing option. We will make our best efforts to find a lek we can set up blinds at, but it is a real possibility that the blind option may not be available in which case you will automatically be moved to the van option.

Weather: We do our best to get you to the birds rain or shine. But if we receive heavy rain the ranch roads can become impassable and we may not be able to reach the leks. We can't provide a refund in case of bad weather, but we will make our best efforts to reschedule you for another day. In our nine years so far this has only happened twice.

Join us for an amazing prairie experience, to see and hear Lesser Prairie-Chickens displaying on their gobbling grounds, or leks. After very early morning coffee and pastries at the Northwest Inn, you will be transported via van to a lek, 30-60 minutes away. Exact departure time will depend on weather and lek location, but will be about 4:00-4:30 am.

Viewing from Blinds

For this option, you will settle into the blinds at about 5:30 am while it is still dark outside. You will soon hear the unmistakable gobbling of the Lesser Prairie-Chicken in the morning twilight. Viewers will stay in the blinds until the birds begin to disperse at about 9:00 am

A few things to keep in mind if using a blind: Dress warmly, the temperatures are often in the 30°-40° F range. The leks are on private working ranches, so we may climb through or use ladders to climb over a barbed-wire fence. You will be in the blinds for about 3 hours and cannot leave without disturbing the birds. Be prepared to sit quietly on a camp-type chair **without** access to a restroom.

Young children will have trouble sitting quietly for that length of time, so the minimum age is 12 years.

Viewing from Vans

For this option, you will stay in the van or other vehicle which will park near a lek before first light. This will be a much more comfortable option. Though you will not be as close to the chickens as in a blind, you will still get excellent views and be able to watch and hear their displays on the lek.

Ranch Brunch at Selman Ranch

After the birds disperse from the lek, we will depart and travel to the Selman Guest Ranch for a ranch brunch at approximately 10:00 am.

Conservation Action—Fence Marking

After brunch, participants can optionally spend about an hour or two working to save Lesser Prairie-Chickens by helping to mark fences at the Selman Ranch IBA (Important Bird Area.)

Please note: The total number of people we can accommodate to view the chickens each morning is limited,

Fence Marking

You can contribute significantly to the protection of Lesser Prairie-Chickens by helping to mark fences, a very simple procedure anyone of any age can perform. Collisions with barbed wire

fencing is a significant cause of chicken mortality. The Sutton Avian Research Center has worked out a technique of using vinyl siding starter strips cut into 2 inch pieces.

These easily snap onto the barbed wire, making the fence visible to the chickens. Fences marked in this manner dramatically reduce chicken mortality. Difficulty: 2

Workshops

Saturday afternoons at the Northwest Inn from 2:00-4:30. Topics will be announced later.

Trek Descriptions

Difficulty Levels 1: Easy walking, no hills 2: A little more vigorous 3: More demanding physically, steeper grades
Call 918-809-6325 for any specific questions about trek difficulties

Harper/Woodward County Birding Trek

A full-day devoted to the hot spots of Harper and Woodward Counties in northwestern Oklahoma. Stops will include Boiling Springs State Park, a wonderful hotspot for migrants and many other species. This is a scenic location with clear running springs and ancient cottonwood trees. Other stops include a privately owned spring-fed pond that, during even the driest years, holds water, a sure location for many species of shorebirds and waterfowl. Nearby playa lakes, - a critically imperiled form of wetland in the short/mixed grass prairie - provides a resting place for many birds which may include the White-faced Ibis, Back-necked Stilts and other waterbirds. These playas provide us a place of wonderment that any observer will appreciate. Another stop is the Selman Ranch Important Bird Area. One of Oklahoma's most important privately owned locations for wildlife, the ranch contains a vast array of habitats and always provides a multitude of species, including Lesser Prairie-Chickens, Snowy Plovers, Rock Wrens, various prairie songbirds, and a whole gamut of other species. The Selman Ranch will impress any visitor, if not for the scenery alone! See <http://bit.ly/tas-selman>. Difficulty: 2.

This trek includes bus transportation , a box lunch & snacks.

Salt Flats area of the Selman

Prairie Dog Town Birding Trek

This will be a more leisurely morning of birding than the County Bird Treks. We will stop at a Prairie Dog town to observe their interesting behavior and the variety of associated wildlife, including Burrowing Owls. We will visit other area habitats, including some playa lakes and Fort Supply Lake. Difficulty: 2

Salt Plains NWR Trek

The Salt Plains National Wildlife Refuge is located in north-central Oklahoma, about 1 3/4 hours east of Woodward. At 10,000 acres the refuge includes the largest saline flat in the central lowlands of North America, with another 32,000 acres of open water, wetlands, prairies, woodlands and farm fields. This diversity of habitat, accounts for an abundance and variety of birds including American White Pelican, White-faced Ibis, American Avocet, Tricolored Heron, Franklin's Gulls, Forster's Tern, numerous plovers, sandpipers and waterbirds. See <http://bit.ly/tas-saltplains>. Trek will return in time for Monday evening dinner in Shattuck. Difficulty: 1.

This trek includes bus transportation as well as a box lunch.

Photographer's Package

Available Friday, Saturday & Sunday.

We're pleased to offer a package designed specifically for the serious photographer. If you sign up for the Photographer's Package you will be placed in specially designated blinds, positioned for the best lighting, with a **guaranteed front row seat the entire morning**. You will drive your own vehicle to the lek area, about 1 hour away (note the lek used for the Photographer's Package is not on the Selman Ranch). You can return to the Selman Ranch house for brunch and then have access the entire day and evening to all areas of the Selman Ranch, which offers an abundance of photographic opportunities, including blinds at a wildlife feeding station and water source that can be used in late afternoon or evening. **Depending on lek locations blinds on the Selman Ranch leks may also be available for your use in the late afternoon, since the birds will often return to the leks at that time. So you can have a second opportunity, in different light, to photograph the birds!** The number of daily spots is limited to six, so register early. The price for blind use and all day access to the Selman Ranch is \$250 per day.

Please Note

The lek we use for photographers is located on a ranch just over the Oklahoma border near Glazier, Texas. **In March 2017 the 300,000+ acre Perryton wildfire completely destroyed this ranch.** Dick Wilberforce, rancher and published photographer, has his permanent photographer's blind which we use at this ranch. He has been photographing from this blind for decades and normally has 40+ birds coming into the lek. The prairie will of course recover, but this was not a normal prairie fire. These fires were moving at a rate of 50+ MPH, so even animals could not escape it. Dick reported seeing hundreds of dead coyotes, antelope and other wildlife. Nothing survived in the 300,000 acre burned area, including the chickens.

No birds returned to the lek in 2017, and we ended up canceling the Photographer's Package. For 2018 we don't know if any birds will return to this lek. We are hopeful they will return, but Dick is also working hard on finding alternate locations for his photographer's blind. This is a difficult time for Dick, since the income from photographers and chicken viewers is a significant part of his ranch income, so he has a very good incentive to locate a lek for photographers in 2018.. **We are taking reservations for the 2018 Photographer's Package (a maximum of 6 people per day) but be aware there is a possibility we'll need to cancel and provide a full refund . We will make a final decision by April 1st.**

Stargazing at Selman Living Lab

After dinner at the Selman Living Lab, join an Astronomer for stargazing using the telescope at the Lab, taking advantage of the truly dark skies in this isolated area of Oklahoma. If the weather is not clear, participants can alternately join that evening's Owl Prowl. Difficulty: 1

Bat Prowl

Alabaster Caverns is just a few miles east of the Selman Living Lab, our location for Sunday dinner. We will meet bat expert Dr. Bill Caire who will be mist netting bats exiting the Cavern. Possible owl sightings of Great Horned, Eastern Screech or Barred. Weather permitting, a moth black lighting station will attract any moth or other insect in the area

Trek Descriptions

Greater Prairie-Chicken Viewing in Osage County

Please note Osage County is 4 hours east of Woodward, & 1.5 hours northwest of Tulsa

We are very pleased to offer viewing of **Greater Prairie-Chickens** from blinds. Osage county, in northeastern Oklahoma, has some of the best populations of the Greater Prairie-Chicken in the country. We have arranged to view the birds from blinds on a private ranch, adjacent to the Nature Conservancy's Tall Grass Prairie Preserve (TGPP). We will gather in the town of Pawhuska at about 4:30 a.m. and take vans to the blinds. You will settle into the blinds at about 5:30 am while it is still dark, but will soon hear the other-worldly booming of the chickens in the morning twilight. You will stay in the blinds until the birds begin to disperse at about 9:00 am.

A few things to keep in mind if using a blind: Dress warmly, the temperatures can be around 40°F. You will be in the blinds for about 3 hours and cannot leave without disturbing the birds. Be prepared to sit quietly on a camp-type chair **without** access to a restroom. Young children will have trouble sitting quietly for that length of time, so the minimum age is 12 years. After leaving the blinds we'll meet with the ranch owners for coffee and doughnuts.

We will then head to the TGPP to spend the rest of the day birding on the preserve until about 4:00. We will have a catered lunch at the preserve headquarters. The vans will return to Pawhuska and you will then proceed on your own to Woodward (assuming you are partaking in other festival events). Difficulty: 1

Please register early - We can only accommodate a **maximum of 20 participants**.

Logistics Our suggested itinerary is to arrive in Pawhuska or Ponca City Tuesday afternoon and spend the night. Some lodging options in Pawhuska include the Black Gold Hotel, 918-287-3303, www.blackgoldmotel.com; the Economy Inn, 918-287-1110; and The Wah-Zha-Zhi House, 918-440-1209, www.wahzhazhihouse.com. Ponca City, about 30 minutes to the west of Pawhuska, offers a full range of hotels. You will then meet the group in Pawhuska early Wednesday morning for van transport to the blinds and afternoon birding. We will get you back to your vehicles by about 4:00 p.m. If you are attending the Photographer Workshop in Woodward on Thursday you will need to drive to Woodward, about 4 hours west, that evening. Otherwise you have all day Thursday to get to Woodward.

Important Note: In 2017 weather made it impossible to reach the lek where we set up blinds. The trek still happened, and we were able to visit a lek visible from the road. We will again make every effort to make blinds available, but if that is not possible we will alternately view from vans.

Wichita Mountains/Southwest Trek

Please note this area is about 4.5 hours south of Woodward

Wichita Mountains This 59,000 acre refuge was established in 1901 and hosts a remnant mixed grass prairie, an island where the natural grasslands escaped destruction because the rocks underfoot defeated the plow. The refuge provides habitat for large native grazing animals such as American Bison, Rocky Mountain Elk, and White-tailed Deer. Texas Longhorn Cattle also share the refuge rangelands as a cultural and historical legacy species. The largest breeding population in Oklahoma of the endangered **Black-capped Vireo** occurs on the refuge. Some other birds found here include the Rufous Crowned Sparrow, Rock Wren & Canyon Wren. We will also visit a local landmark, the Meers Store, www.meersstore.com, for a famous Meersburger, "the best burger in Oklahoma." See www.tulsaadubon.org/guides/wichita-mountains-nwr.htm. Difficulty: 2

Southwest Oklahoma/Hackberry Flat is one of Oklahoma's premier birding destinations, known for its high concentrations of shorebirds and waterbirds. Rare and uncommon species such as the Black-necked Stilt, Stilt Sandpiper, and Snowy Plover can be seen. The sheer numbers of birds make this area stand out as one of the best anywhere. Please note that participants will need to purchase a *Oklahoma Wildlife Department Conservation Passport* for \$26 if visiting Hackberry. See www.tulsaadubon.org/guides/hackberry-flat.htm. Difficulty: 1

Logistics You will drive individually Sunday evening and staying overnight in Lawton (make reservations on your own) or camp at the Wichita Mtns. For those also visiting Hackberry on Tuesday, you would stay in Lawton (again making your own reservations) and then

Evening Events & Dinners

Banquet and Keynote Speaker

The Saturday evening banquet will be at the Northwest Inn in Woodward. A cash bar will be available. There are three menu options, steak, grilled chicken breast, or a vegetarian entree. These are priced individually on the registration form. Al Blatt will be the keynote speaker.

Dinner & Stargazing at the Selman Living Lab

The Selman Living Laboratory is a field research facility located in the rolling hills & plains about 30 miles northeast of Woodward. On the Selman Lab's wide array of habitats are several small buildings including an astronomical observatory. Dinner will be a cookout of hamburgers, chicken (no, not prairie-chicken!) and salads at the Lab's large barbeque pit. **Before dinner prairie plant expert Dr. Gloria Cadell will lead a botany walk around the lab prairie habitats.** After dark you can either go to nearby Alabaster Caverns for a bat watch, or stay at the SLL to take advantage of northwest Oklahoma's dark skies for stargazing (weather permitting, of course!) See www.biology.uco.edu/SelmanLL

Black Mesa Birding Trek

The Black Mesa area is a special place that lies in the very shadow of the Rocky Mountains. There is a decidedly western influence in its biota, with many bird species seen nowhere else in Oklahoma. We will explore the dry, rocky canyons lined by scrubby oaks; the rugged, flat-topped mesas studded with junipers and pinyon pines; the great cottonwoods along the Cimarron River.

The mesa country represents a microcosm of vast open spaces, rough topography, and arid land vegetation typical of the Old West. A spirit of natural wildness permeates this land, where the passage of time is noticed hardly at all.

The Black Mesa area is Oklahoma on Mountain Standard Time. Whether you're walking in the mesalands, in the canyons or in downtown Kenton (population somewhere around 20), you get the feeling that you're in America in the 30s. The land is majestic, the people are humble, the land still rules and cattle outnumber humans. Kenton is located in the northwest corner of Cimarron County, Oklahoma's furthest west county - 2,000 square miles without a single stoplight.

Softer sedimentary rock composing the mesas has eroded more rapidly than the overlying igneous layers. As a result, flat-topped buttes, wandering ridges, and isolated peaks have been formed that jut skyward from their buttresses of accumulated soil. Some of the many unique bird species are Scaled Quail, Long-billed Curlew, Mountain Plover, Say's Phoebe, Sage and Curve-billed Thrashers, Lark Bunting, Ash-throated Flycatcher, Cassin's Kingbird, Townsend's Solitaire, Mountain Bluebird, Black-billed Magpie, Scrub, Pinyon and Stellar's Jay, Green-tailed and Canyon Towhees, Common Poorwill, Western Screech-Owl, Lewis's Woodpecker, Ladder-backed Woodpecker, Western Wood-Pewee, Lesser Goldfinch, Golden Eagle, Roadrunner, Ferruginous Hawk, Prairie Falcon, Common and Chihuahuan Ravens, Burrowing Owl, Black-chinned Hummingbird, Juniper Titmouse, Vermilion Flycatcher, Rock and Canyon Wrens, Western Meadowlark, Black-throated, Lark, Cassin's, Rufous-crowned and Brewer's Sparrows, and Bull-ock's Oriole.

This 3-day/2-night tour will depart Woodward via car pool Monday morning. The fee includes leadership, admission fees, dinner Monday, and lunch & dinner Tuesday. There are a limited number of lodging options in this area, so be sure you reserve your lodging before registering for this trek. Camping is available at Black Mesa State Park.

Difficulty: 1

Registration is limited to a maximum of 20 participants. We also need a minimum of 4 participants, or the trek will be cancelled, and the fee refunded.

Black Mesa Schedule

Typical schedule, subject to change based on birds and conditions

Black Mesa, Day 1 - Mon.

7:00 am Depart Woodward (breakfast at NW Inn)
9:00 am – 10:30 am Birding at Optima Lake
11:30 am – 12:30 pm Lunch in Guymon (on own)
2:00 pm – 3:00 pm Birding at Boise City Sewage Ponds & Keyes
4:00 pm – 5:00 pm Check in to lodging
5:00 pm – 6:30 pm Birding at Hoot Owl Ranch
6:30 pm Supper (on own) at Hoot Owl Ranch

Black Mesa, Day 2 - Tue.

7:00 am – 8:00 am Breakfast at B&Bs
8:00 am – 12:00 pm Birding Black Mesa area, including visit to Three State Marker, Dinosaur Tracks, Coronado's Signature
12:00 pm – 1:00 pm Lunch (at Hitching Post)
2:00 pm – 6:00 pm Birding at Black Mesa State Park, Easter Pageant Area, etc.
7:00 pm Supper at Hitching Post

Black Mesa, Day 3 - Wed.

7:00 am – 8:00 am Breakfast at B&Bs
8:00 am – 11:30 am Birding Black Mesa area
11:30 am – 12:30 pm Lunch at Hitching Post
12:30 pm – 1:30 pm Depart Kenton to Boise City
1:30 pm – 3:30 pm Tour Autograph Rock, Sewage Ponds
3:30 pm – 7:30 pm Depart Boise City to Guymon

Liability Waiver and Emergency Contact Information - Please read and sign.

I agree and expressly acknowledge, as a registrant for the 2012 Lek Treks & More Woodward Lesser Prairie-Chicken Festival, conducted by the Oklahoma Audubon Council and the Tulsa Audubon Society, that I am fully aware that such events involve certain risks and dangers that include, but are not limited to, the hazards of traveling, the risk of injuries and the possibility that an accident or illness could occur as a result of the participation in these events. In consideration of, and as partial payment for, the right to participate in the 2012 Lek Treks & More Woodward Lesser Prairie-Chicken Festival, I do hereby waive, release and hold harmless the Oklahoma Audubon Council and the Tulsa Audubon Society, its agents, employees, trustees, instructors, directors, volunteers, and any contractors or sub-contractors hired in connection with the 2012 Lek Treks & More Woodward Lesser Prairie-Chicken Festival. I also agree not to allow any other individual to participate in my place.
